

[Electronic Filing Services](#)

The IRS is scheduled to begin accepting e-filed personal tax returns on January 23, 2017. E-filing is mandatory under our license, except in rare instances when a return is required to be paper-filed. E-filing also enables us to receive your signature by fax or scan potentially saving an extra trip to our office.

We generally e-mail a secure copy of your return for review. It is strongly recommended that you review your return thoroughly for errors and omissions (including spelling and address changes) before signing. A PDF copy of your tax return will be sent from LWalker@4-serenity.com (securely) via Citrix ShareFile.

Refund and Payment Options

Refunds – Refunds for returns claiming the Earned Income Tax Credit (EITC) and Additional Child Tax Credit (CTC) will not be released from the IRS until February 15th. Note: Returns claiming the EITC or CTC may take up to four weeks to process.

- **Direct Deposit** (recommended) – Refunds normally arrive within 10 to 21 days with no additional fees. You are allowed to have your refund direct deposited in up to three separate bank accounts. We do not charge additional fees for this service, as long as tax preparation fees are paid at the time of service, or by e-check authorization.
- **Paper Checks** (not recommended) - You may also receive your refund in the form of a paper check. Refunds by check are generally received in 4 to 6 weeks. Refunds by check are not recommended because they may be lost in the mail, damaged, or stolen in transit.

Paying Tax Preparation Fees – Tax preparation fees are due upon completion of your return. In order to keep our fees reasonable, we no longer offer fee based refund settlement products. Instead, we offer settlement of accounts via electronic checks authorized on a designated day, free of charge. We also accept Visa, MasterCard, American Express, and Discover, checks, cash and electronic checks.

If you owe taxes – If you owe Federal or State Taxes you may choose to have your payment debited from your checking account at no cost, at the time of filing. If filed before April 18th you may choose to set up the payment for debit on April 18th. After April 18th your payment date must be the same as the filing date. Scheduling a direct debit from your checking account at the time the return is filed is the fastest, easiest, and cheapest way to pay (it's free).

The IRS also offers [Direct Pay](#), a secure service in which your payment may be debited from a bank account at no cost. Direct debit is also available for most State tax agencies. You may also make payments by credit card, however, be aware that private companies offering credit card processing for the government charge fees of up to 2.49%. You always have the option of mailing a check or money order along with the Payment Voucher printed with your tax return.
